

This image shows a massive word search puzzle. The words are not formed by standard letters, but rather by specific patterns of black and white squares. The words visible in the grid are:

- PLAY
- MODE
- DEEP
- PL
- A
- L

Each word appears multiple times in the grid, often rotated or mirrored. The patterns used for the words are as follows:

- PLAY: Formed by a 4x4 square of black squares.
- MODE: Formed by a 4x4 square of white squares.
- DEEP: Formed by a 4x4 square of black squares.
- PL: Formed by a 2x2 square of black squares.
- A: Formed by a single black square.
- L: Formed by a single black square.

The grid itself is a large 100x100 square of black and white squares, with the words hidden within it.
